

Workforce Development Fund 2023-24

Funded qualifications and learning

Last updated April 2023

All learning is claimed on completion of a qualification, learning programme or digital learning module and evidenced by a copy of the learner's certificate.

Funding is only available for the digital learning modules, learning programmes, qualifications and apprenticeships specified below.

A maximum of £2,000 can be claimed per learner per funding year. You can claim funding for the same learner in multiple funding years, to support their personal development and career progression.

Important to note: All of the courses in this list will be funded during the 2023-24 financial year. The government is also due to launch a new fund for training and professional development to support members of the adult social care workforce to develop in their roles and progress in their careers, as outlined in the ['Next Steps to put People at the Heart of Care'](#) published in April. Some courses may be removed from the WDF when this new fund launches as there will be the opportunity to claim towards training costs for new learners through the new fund. Please note, any learners enrolled in eligible learning prior to the new fund being launched will remain eligible for and receive support through the WDF.

Introductory modules for managers

Funding is only available for the Skills for Care digital learning modules specified below.

Audience: These development modules are for aspiring, new and experienced leaders and managers.

Claim code	Value	Name of module	Duration
