

Free silent review

We want to empower you to make informed decisions, so you can focus on what matters most; delivering effective care. We offer **free silent reviews** to Partners in Care members, helping you to understand if any areas of your insurance require further consideration.

What is a silent review?

A silent review is designed to assess your current insurance arrangements to highlight any areas that you may wish to consider further. One of our specialists will carefully examine your current policy documentation and the cover provided. This process is **designed to be discreet** – your existing arrangements will remain untouched, and your current brokers or insurers won't be aware that a review is taking place.

Even if your cover has recently been renewed, a silent review can provide peace of mind and sometimes, identify important areas of cover that require further review or improvement.

Please note, upon undertaking a silent review, we cannot guarantee that your current cover is sufficient for all potential exposures. Its purpose is to highlight potential areas of cover for further review. We accept no liability for any loss, damage, or claim arising from reliance on this review, including any omissions or oversights that may also have been present in the original insurance arrangements.
