

Fusion Care – Smarter Care Management Software

Fusion Care provides innovative, easy-to-use care management software designed specifically for care homes and care groups across the UK. We have 16 years' experience supplying digital systems to the sector. Our six integrated solutions help providers reduce administration, improve operational efficiency, strengthen compliance and deliver outstanding person-centred care.

Whether you are new to digital systems or are looking to move from your current supplier, migrating to Fusion is a straightforward process.

Exclusive Member Offer – 15% Discount

As part of our partnership with the association, **Fusion Care is delighted to offer all association members an exclusive 15% discount on software setup and training fees.**

Whether you're moving from paper-based processes, switching software providers or introducing additional digital solutions, our experienced team will support you every step of the way.

This exclusive offer helps members make the transition to smarter, more efficient care management at a reduced initial cost.

Book your free no obligation demo today hello@fusioncare.co.uk and mention you are a Partners in Care member to receive your discount.
