Personal Assistants

About us

Partners in Care is a not-for-profit care association supporting independent adult social care providers across Shropshire, Telford and Wrekin. Established in 2003, we exist to represent, upskill, and champion the local adult social care workforce. By joining together as a partnership, we amplify our voices and build understanding of the vital contribution made by local social care providers in the wider community and health system. We want social care to be recognised and rewarded fairly and our message is stronger when we come together.
